THE STATE OF DESIGN

# Architectural PRODUCTS

**1.** Energy-efficient and easy to install, the Astra Rhapsody Linear Gas Fireplace by **Innovative Hearth Products** adds modern sophistication to any hospitality or commercial space. The linear design stands 51 by 39 inches, offering users the calming scene of dancing flames.

**2.** Inspired by the dramatic textures of the Grand Canyon, **Hardware Renaissance's** Canyon Collection comes in white or silicon bronze with a hand-applied finish that will age gracefully

over time. Available as a Mortise Entry, Deadbolt Entry, Multipoint Entry, Lever, Lever Euro, and Thumb Latch.

**3.** Conceived by famed Italian Designer Stefano Giovannoni for **Laufen**, the **ILBAGNDALESSI** One shelf towel holder is a sleek, contemporary answer for minimalist bathrooms. The simple, curved design adds elegant intrigue while the thin slit through which to hang your towel and flat surface for grooming necessities adds function to the beautiful form.

4. Adding technological innovation to sleek design, **Aliteel's** Beyond full-strike, sliding glass door model adds further acoustic enhancement with a drip seal that is automatically activated when the door is closed. The seal closes off space between the bottoms of the door and floor, inhibiting sound transmission.

5. Coiled wire fabric can add a dynamic and surprising element to commercial interiors. **Cascade Architectural's** Fabtrac system is a suspended coiled wire fabric of 19-gauge galvanized steel, which comes in three different finishes: antique copper, satin bronze, and silver-toned.

6. **Porcelanosa's** Flow Series is a minimalistic yet classy wall-mounted sink and bathroom organization unit. Great for both residential and commercial bathroom spaces in need of hideaway storage. Made of Porcelanosa's Krión.
