New Designs at Porcelanosa

The Nara Collection of tiles has been expanded two oriental-inspired versions which come with patterns similar to the famous Zen gardens: Nara Basic and Dalia. The new designs for the ceramic tiles have grooved reliefs similar to raked sand patterns in dry landscape gardens, also known as Karesansui gardens which were used by Japanese Zen monks as spaces to meditate. The Dalia model introduces decorative elements of plants which sprout with stylish stalks; available in Blanco (white), Natural (Tan) or Beige.
