

OCEAN HOME

At Porcelanosa this season, small is beautiful. Santiago Manent, Porcelanosa's director of sales and marketing, says the company's designers are focused on the development of more innovative and versatile product lines.

Recent releases, such as the Emotions Kitchen Collection, align perfectly with the demands of small apartments and space-crunched urban areas, as well as compact guest or staff quarters in more spacious coastal homes, by featuring new built-in offerings and a wider range of cabinet heights and depths. porcelanosa-usa.com
